WHO AM I?

My name is Bi Qiuyu. I was born in Jiangsu province, China in 1999. During my undergraduate, I studied computer science and technology at Nanjing University. In school, I participated in many competitions, including MCM, vivo hackathon and so on. Won the third prize of college students' knowledge contest. At the same time, I served as the minister of Practice department in the Student Union of Computer department and the head of Education department in our school's go club.

EXPERIENCE

- 2/2018 – 3/2018 **Exchange student** HongKong University.
During my exchange, I participated in a competition organized by the university of Hong Kong on Kaggle to research the running time of algorithms with different parameters
Python / Sklearn / Tensorflows
- 8/2019 – 1/2020 **Exchange student** University of California, Berkeley.
During my life in California, I was really exposed to scientific research at the first time. This exchange activity has greatly enriched my horizon.
LaTeX / C/C++ / Git / Linux

EDUCATION HISTORY

- 2014 – 2017 **High School Degree** Yizheng High School
High school education has laid a solid foundation for my future journey. I learned a lot of basic mathematics here, including differentiation, integration and probability. When I was a senior in high school, Alphago beat lee sedol, which is a shock to me. Through this opportunity, I chose computer science and technology as my future direction Lorem ipsum dolor sit amet, consectetur adipiscing elit. Donec a diam lectus.
- 2017 – **Postgraduate Diploma** Nanjing University
As a sophomore, I served as the minister of Practice department in the Student Union of Computer department of Nanjing University. Nanjing University gives me a platform to get access to cutting-edge knowledge. During the freshman, I learn how to use algorithms to solve different problems whether it's hard or easy. During the sophomore year, I learned a lot about operating systems and wrote a small file system and now my GPA is 4.3

LANGUAGES

Chinese - native
English - proficient
Japanese - rudimentary

HOBBIES

I love the game of go. I started to learn go when I was 4 years old, and now I am the five level of go. I was the head of Education department of Go club of Nanjing University. I also like to play tennis, although not very good, I still keep a strong interest in it.

NON PROFIT

During the summer vacation of my freshman year, I helped to investigate the information security in online shopping and summarized several methods for residents to protect their information when shopping online.
